

Kasollet e Zanave
Prapashtice, Kosovo

Kasollet e Zanave is not just a vacation spot, but a model of sustainable and responsible tourism. With a dedicated team and an organizational structure that includes professionals from various fields, from hospitality, animal care to event management, the village functions as a living organism that places the visitor at the center of every experience.

At the heart of the village is the restaurant, where visitors enjoy traditional recipes and lovingly prepared meals, using fresh ingredients from the village greenhouse and local farmers. Breakfasts on the veranda, dinners by the fire, and an authentic atmosphere transform this restaurant into a meeting point of Albanian taste and spirit.

At the Village Snack Bar, guests will have the opportunity to enjoy a rich selection of appetizers, served in the shade of plum trees, or relax in our two cafes – one near the Animal Garden and the other near the playground – where the aroma of coffee and local foods blend with the sounds of nature and the joy of children. These spaces are designed to offer moments of relaxation, conversation and enjoyment for our guests.

Beyond accommodation and cuisine, the “Fairy Huts” Tourist Village offers a wide range of activities designed for all ages. Children can have fun in the Playground, a space filled with lots of fun activities, such as: slides, a football field on straw, an enigmatic labyrinth, wooden swings, jumping on soft hay, bike races, water zorbing, and many other games that will make children fulfilled and endlessly happy.

Every visit to Kasollet e Zanave contributes to the sustainable development of the rural area, to the empowerment of local women through employment and training, and to the cultivation of a new generation that learns to appreciate nature through play and experience.
